

*At Jocata we create a **purpose-driven business ecosystem** for our customers using adaptive digital technologies at high velocity and scale, driving exponential growth, streamlined operations, risk-adjusted insights and regulatory compliance. Jocata GRID™, Jocata's AI driven technology platform, provides organisations an extensible framework to build and deploy solutions efficiently and at tremendous velocity and scale to address multiple use cases in Digital Lending, KYC, Onboarding, AML, Screening, Fraud, & Risk Monitoring.*

*Jocata was founded in 2010 by leadership from the Big 4 consulting firms and credit transformation organisations from across the world to meet the digitally savvy consumer's needs and complex regulatory requirements faced by the BFSI industry. Jocata has received multiple awards including the prestigious ASIAN BANKER AWARD three years in a row (2018 – 2020) for our multiple implementations. The company has steadily grown its product portfolio and professional workforce with industry expertise (370+ team members) to deftly cater to global organisations.*

*Jocata's industry-leading AI based digital lending platform and Digital Transaction & Fraud monitoring platform. The Digital Lending platform is deployed at several large banks and has helped them significantly grow their loan-books using digital channels. Jocata has implementations across multiple products spanning Retail, SME and Corporate Lending. The platform also helps financial service providers capture, maintain and monitor customer data centrally in a secure, cost efficient and structured manner. On the Compliance side, Jocata today, across its AML and Fraud implementations, monitors over 15 million plus transactions per day. Our AI models predict the outcome of these transactions at a 90% plus accuracy level.*
